LIMERICKS.

£231,215 as Prize Money.

A contemporary remarks: "The Earl of Limerick's appeal to 'limerick' winners to hand over some part of their earnings to the charities of the city which gives its name to the popular amusement calls attention again to the enormous sums which have changed hands since the 'limerick' competitions began in March last year.

If only 5 per cent. of 'limerick' winners went to Limerick's charities the amount would be considerable. The sums distributed by the principal papers organising these competitions have been to date:

"Pearson's Weekly" £20,264
"News of the World" 54,000
"Answers" 34,678
"London Opinion" 34,062
"The Bits" 27,411

£231,215

As in most cases 10 per cent. is deducted for the heavy expense of reading and sorting the 'limericks' and dealing with the money received and paid out, this amount represents a total of over one-quarter of a million sent by 'limerick' competitors to these five papers. Five per cent. on this would be £12,560.

During eight months of 1907 8,520,930 more sixpenny postal orders were sold than in the six corresponding eight months of 1906. The Post Office is aware that there is at present no appreciable lessening of the demand. Sixpenny postal orders are still being bought at the rate of 2,130,000, or £33,000, per month.

THE DUKE OF PORTLAND.

The Real Story.

T. P. writes in "P. T. O.": The real story of the Duke of Portland is sufficiently curious in itself. Here is a man who is a Duke; who had previously been a member of the House of Commons; who belongs to White's and all the other prominent clubs of London; who is, therefore, a conspicuous personage in the eyes of the world; and entitled to take his place anywhere; and suddenly—for no reason that the world knew—he throws it all up. If he had been a medieval Catholic he possibly would, like Charles V., have retired into a monastery, there in silence and solitude to do penance for the sins of his youth. As it was he became as much lost to the world as if he were in a cloister; and apparently he spent most of his time in deriving means by which he should escape not merely the attention, but even the sight of his fellow-men.

Wolke Park, as we all know, has beneath it a whole town, almost as if it were a spot taken from the catacombs of Rome. In Harcourt House, in London, there was a great gate and a courtyard, which isolated the house of the Duke almost as much from the public gaze and from public sight as if it were a castle on the Rhine which was isolated by a drawbridge, and nestling on a dark and inaccessible mountain top. Of all the duties of his great station—of all the social possibilities or amusements that were open to him—of all the mighty and thrilling life of the busy nation to which he belonged—of that vast metropolis, a considerable portion of whose most valuable and beautiful space he owned—of all that he formed to part; took no heed; he was unique and—so a corpse—as the Duke's father are said to be in their strict and renewed order. It is a strange story, and the key to the enigma has not yet been found. Was it that he has some loathsome disease—leprosy as was suggested in the Duke trial—or some dark story; or was it simply one of those cases where great men are said to be through many generations ends in one degenerate, cursed by the form of insanity which lies over the future prospects of fortune and station, and makes the Peer or the millionaire a more pitiful object than the beggar or the street Arab that whistles past him in his rage.

HOW TO DO MORE BUSINESS.

MANY AMERICANS have built up great commercial enterprises, by the use of Trade-News items supplied by our CLIPPING BUREAU. Chinese merchants can do the same if they follow American methods.

We clip business news from more than 50,000 papers monthly, and send these items to you while there is good prospect of supplying what is needed and doing business.

We can send you news and clippings on any line of business, or any subject, and you will be able to know, IN TRUTH, just what American business methods are like, and where there are openings for Chinese merchandise.

Suppose, for instance, you are a maker of Pottery: our Clipping Bureau might find in some paper an item saying that a big wholesale Pottery concern was being organized in a certain town:—we, of course, would send you that business news item, and give you a chance to do business with that firm.

We can do just the same in any line of business, for there is always something being done that it might pay Chinese merchants to know.

We can supply you with advertisements of all the great American merchants and manufacturers, so that you may assimilate their ideas and increase your business in China the way we do here.

To avoid delay, send ten dollars (Max.) for one month's trial order. Subsequent rate can be determined according to service. It won't cost any money to send for our free Book which tells all about our service and how much it costs. Send for it today.

THE NEW FRENCH REMEDY

THERAPION.

a complete revolution has been wrought in the department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1—A Sovereign

Remedy for discharges from the urinary organs, suppurating abscesses, the use of which does irreparable harm by laying the foundation of chronic disease.

THERAPION No. 2—A Sovereign

Remedy for primary and secondary skin eruptions, eruptions, pains and swellings of the joints, and all those complaints which mercury and arsenicals are popularly but erroneously supposed to cure. This preparation purifies the blood system through the blood and thoroughly eliminates all venereal matter from the body.

THERAPION No. 3—A Sovereign

Remedy for debility, nervousness, impaired vitality, sleeplessness, indigestion and incapacity for business or pleasure, loss of confidence, blushing, indigestion, pains in the back and head, and all those disorders resulting from early error and excess which the faculty so persistently ignores because so inclined to cure or even relieve.

THERAPION is a hygienic

Remedy for all venereal diseases, and is the only one in the world which is not only safe, but also pleasant to take. It is the only one which is not only safe, but also pleasant to take. It is the only one which is not only safe, but also pleasant to take.

WORK AND WAGES IN 1907.

A Year of Prosperity.

The Board of Trade 'Labour Gazette' contains an article on employment, prices, wages, and disputes in 1907. It states that the general condition of employment in the first half of 1907 showed some improvement as compared with the corresponding period of 1906, but in the second half of the year there was a decline which was most marked in the metal, engineering, and shipbuilding trades. So that on the whole employment in the year 1907 was much about the same as in 1906. Employment in a number of industries is still fairly good, and in some very good. Returns relating to over 600,000 members of trade unions show that the mean percentage of members unemployed at the end of each month of 1907 was 4.2, as compared with 4.1 in 1906, 5.4 in 1905, and 6.5 in 1904.

The upward movement in wages, which began in the second half of 1906, continued throughout 1906 and 1907, and at the end of the year wages stood at a higher level than at the end of any year since 1893. The net effect of the changes in wages in 1907 was an increase of nearly £189,000 per week, which figures are exclusive of changes affecting agricultural labourers, seamen, railway servants, police, and Government employees. The changes in the weekly hours of labour reported during 1907 affected only 34,000 workpeople, and resulted in a net reduction in their working time of 71,000 hours per week.

The number of disputes was 550, involving 143,784 workpeople, with an aggregate duration of 2,169,700 working days. Compared with the total industrial population of the United Kingdom, the numbers affected by the disputes of the year is small, amounting to less than 14 per cent. The general level of prices in 1907 showed a rise of over 5 per cent, as compared with the previous year, and, excluding 1891, was higher than in any year since 1885.

For the out-and-out champions of the doctrine of sexual equality the fact that the motor car-woman has proved a complete failure wherever she has been tried seems, at first blush, a trifle awkward. But it is already being explained away on the ground that, although the fair chauffeurs were quite as proficient drivers as their male rivals under equal conditions, they were unfairly handicapped by the nervousness induced by the "chuff" to which they were subjected in the performance of their duties. But to put in such a plea is surely to give their whole case away, since to be "chuffed" is an indispensable attribute of every Jolt, whether handling the reins or the steering-wheel. To be neatly susceptible to ridicule is no sort of qualification for driving a taxicab—or even for assisting to guide the helm of State.

BENEFIT UNTIL I TOOK

CLARKE'S BLOOD MIXTURE.

Mr. F. E. Lewis, 48, Bridge Street Row, Chester, writes:—Just a line in favour of 'Clarke's Blood Mixture.' I had eczema for seven months, and tried many things without benefit until I took your remedy. After the eighth bottle I was quite well again. Please accept this letter as a token of gratitude to your wonderful 'Clarke's Blood Mixture.'—June 16, 1903.

IMPORTERS IN THE BLOOD.

'We have seen hosts of letters from all sorts and conditions of people, in which the writers acknowledge the benefit they have received from Clarke's Blood Mixture, which as a curative agent cannot be too highly estimated, since it cleanses and clears the blood from all impurities, and restores it to its natural condition.' This is a good testimonial from the 'Family Doctor,' the popular medical weekly, which goes on further to say:—

'It is certainly the finest blood purifier that science and skill have brought to light, and we can with the utmost confidence recommend it to our subscribers and public generally.'

HONGKONG, SATURDAY, FEBRUARY 22, 1908.

THE SUPREME COURT VACATION.

YESTERDAY we placed readers in possession
of the arguments advanced by His
Honour the Chief Justice in support of
the proposed extension of the Supreme
Court vacation. It is well, before con-
sidering these arguments in detail, to
make it clear that we have never taken
up the position that a judge should be
asked to perform an unreasonable
amount of work. On the contrary we
have repeatedly declared that, since it
was obvious that there was more work
than could be performed with a Bench
of the present strength, the Government
should lose no time in providing for the
appointment of an additional judge.

When, therefore, we state that we think
that Sir Francis Pigott has absolutely
failed to make out his case we must not
be misunderstood. We have no desire
to see the Chief Justice or anyone else
compelled to bear an almost unendur-
able strain upon body and mind. We
want to see him relieved from that
strain but at the same time we do not
wish to see the public suffer. In setting
out the history of the vacation the
Chief Justice mentioned that, prior to
the Ordinance passed in 1893, there was
no long vacation. This is not quite ac-

curate. In 1873 an Ordinance was passed
providing for a vacation of a month.
This Ordinance was in force until 1882
when it was superseded by an Ordinance
which made no provision for a vacation.
It is important to bear in mind the fact
that after an experience extending over
nine years the decision was arrived at
that a vacation was unnecessary. For
sixteen years, until 1898, there was
no vacation and, as His Honour tells us,
it was with the utmost difficulty that
the solicitors were in 1898 persuaded to
revert to the custom prevailing prior to
1882. This brief historical review
seems to us to furnish better arguments
for the abolition of the vacation than
for its extension. His Honour de-
clares that both sides of the profession
are dissatisfied with things as they are
and that the extension of the vacation
was agreed to after consultations with
the Bar and the leading solicitors. The
inference to be drawn is that both
branches of the legal profession are in
favour of the extension of the vacation.
We can assure the Chief Justice that
this is not so. If a ballot were held
among the solicitors of the Colony
to-morrow we are convinced that the
proposal would be rejected by a
large majority. It is an open secret
that the members of the Committee of
the local Law Society gave their assent
to the proposal without consulting the
members. Had the members been con-
sulted we believe that the Chief Justice
would have learned that the sense of
the majority of the solicitors of the
Colony was against the extension. The
matter is of sufficient importance to
warrant the calling of a special meeting
of the Law Society to define the attitude
of members on this question. If the
majority is against the proposal one of
the main props of Sir Francis Pigott's
arguments is knocked away. If the
Law Society does summon a meeting
shortly, as we would strongly recom-
mend it to do, it should take some action
in regard to the third judge question.
These matters are co-related and may
well be dealt with simultaneously. We
are informed that one reason advanced
to explain the failure to appoint another
judge is the fact that there is no court
for him. This is obviously an unten-
able reason. It is very necessary the
quarters at the Supreme Court now
occupied by the Attorney-General could
be used as a court. Accommodation for
the Attorney-General could be found in
any Chambers convenient to the court
—there are plenty available. If the
main obstacle in the way of the appoint-
ment of an additional judge is the diffi-
culty of housing him then that obstacle
can be dismissed as imaginary. It is
worth remarking that in London, in the
early part of the year, judges were sit-
ting in the vestibules and other places
because there was no regular court for
them. Mr Justice Edge, according to
Home papers, recently sat in a different
court each day of one week and he an-
nounced to the Bar that he had not the
shadow of an idea where he was to sit
the following week. Evidently difficul-
ties of this kind are not considered in-
superable at Home. The Law Society
might well make representations in the
right quarter of the immense boon it
would confer on suitors if they were
enabled to have their causes determined
without vexatious and expensive delays.
The appointment of another judge
would make an extension of the vacation
unnecessary—we do not, of course, ad-
mit that it is necessary in any event—
would enable causes to be despatched
with much more rapidity than at present
and, most important of all, would restore
to Hongkong the right of appeal which
is, in effect, denied in present circum-
stances. The possibility of securing
these signal advantages should, and
we have no doubt will, induce the Law
Society to adopt active measures with-
out delay.

A correspondent writes: Just as it
should be—To-day is the anniversary
of George Washington's birthday, and
the Lions appear at the Theatre Royal
this evening for the last time!

Henceforth Government Medical
Officers are to charge \$5 to persons other
than members of the Civil Service for
certificates in connection with fitness or
unfitness for the performance of duty.

The Army Board at Peking is waking
up to the large numbers who are said
to have deserted from the army. An
order has been issued in which all the
Provincial authorities throughout the
empire have been ordered to discover
how many men during the last two
years have deserted from the army, and
all the constables and watchmen in the
country districts, who are supposed to
be familiar with the residents, are to be
enlisted in seeking out deserters and
having them arrested. It is worthy of
note, however, that the papers affirm
that if China is to prevent this leakage
she must at once set about giving the
people a constitution, so that the people
themselves may have an interest in the
army, and in this way this distressing
state of affairs may to an extent be
prevented. It is pointed out that ere
the West touched the East the old way
of doing things might suffice, because
there was nothing better known. But
with the Western soldiers, and then the
ideals of Western Government before
the people, the ordinary man is less
inclined to be a soldier than a-fortune-
teller, and if there is to be a new esprit
de corps in the army it can only come
from the establishment of a different kind
of Government more in harmony with the
aims of modern men.

Advice from Peking to hand in-
timate that the introduction of an
English column in the "Peking Daily
News," a Chinese newspaper of
immense influence and age, being
the organ of the members of the
Imperial family, has been announced.
The English editor, says an advertise-
ment which has appeared in Chinese
in that journal, is a man of the highest
education. So far the English side of
the paper has not yet appeared, and
we are therefore unable to state what
attitude it proposes to adopt. It being
the organ of high nobility, we presume
the introduction of English in the
paper is, as the Chinese say, for the
purpose of looking after Chinese
interests. For some time past there
has been a movement on foot for the
establishment by the Chinese Govern-
ment of an English paper—such a
paper having been considered absolute-
ly necessary to lead assistance during
diplomatic negotiations between China
and foreign Powers. From this time
Taotai In Fu, who is an English
scholar of high standing, was appoint-
ed as editor till the present announce-
ment of the appointment of an editor,
we have heard nothing about the
matter, and we presume the proposed
paper died a natural death. In the
matter of English literature in a
Chinese journal, the *Nanyang* of
Shanghai was perhaps the first
Chinese paper to be conducted at
all satisfactorily, though not without
creating unpleasantness between for-
eigners and Chinese in the Northern
settlement. However, being unable to
find supporters, the English columns in
that journal have since been discon-
tinued and, as the Chinese say, "in the
eyes of the public China is dumb for
want of a paper in a foreign language."

**CHINESE GOVERNMENT SER-
VICE AT HONGKONG.**

Officially the Chinese Government is not
represented at Hongkong, but privately
there are Government agents and officials
who hold respective posts in the colony
and each man has his own duties to per-
form. From Chinese official reports, it is
announced that Tsotai Liang Yiu Chang
has been appointed, among others, an officer
to reside in Hongkong for the transmission
of the various official documents between
foreign countries and the province of
Chihli.

An official statement has been made

continue to be the friendliest.

**BRITAIN AND THE UNITED
STATES FLEET.**

LONDON, February 20.

treaty, providing for a joint Commission

of the British and United States Gov-

JAPAN IN MANCHURIA

America Neutral.

LONDON, February 20.

The Washington report that Presi-
dent Roosevelt, at the instance of
China, is about to issue a protest against
the policy of Japan in Manchuria, is
emphatically denied.

It is declared that Japan's control of
Manchuria is more hurtful to Great
Britain, Germany, and other nations
whose trade in the Orient is larger than
that of America. A protest from these
would not surprise the United States,
but would only receive the latter's
moral support.

It is admitted that the United States
is losing its foothold in the Orient;
owing largely to Governmental inter-
ference with the railways, which is
leading to a discontinuance of certain
trades.

THE SEIZED STEAMER.

Portuguese Demand.

(Chinese Mail's Service.)

PEKING, February 21.

Following the demand of the Japane-
se Minister for the release of the *Tatsu*
Maru II, the Portuguese Minister has
notified the Waiwupu that the action on
the part of the Canton authorities in
seizing the steamer directly disturbed
the sovereign rights of Portugal, as the
vessel was within Portuguese waters
when seized.

The Portuguese Minister has asked
the return of the arms and ammunition,
and the release of the vessel.

The Viceroy's Attitude.

Viceroy Chan Jon Chun has ap-
proached Sir Chen Tung Liang Cheng
many times in connection with the seized
vessel and asked the ex-diplomat's opinion
as to the various diplomatic points. Sir
Chen Tung has given a few hints but
refused to accept responsibility.

The Viceroy is reported to be very firm
in the matter, and in reply to the various
representations and demands from the
Japanese and Portuguese consular authori-
ties, he has stated that pending an official
enquiry he held neither the arms nor
the vessel would be restored, and as the
case was one under the jurisdiction of the
Canton Government it would be only
referred to Peking in the event of no
satisfactory decision being come to.

At present the case is in the hands of
the Customs awaiting an official enquiry.
No fixed date has yet been announced for
the official enquiry.

THE TEST MATCH.

England Batting Well.

(From Our Special Correspondent.)

SYDNEY, Feb. 21, 6.45 p.m.

J. B. Hobbs was joined by G. Gunn after the tea adjournment. The pair opened steadily, Hobbs being the first to display any freedom, but his example was soon followed by the Notts professional and runs came freely.

Both were still undefeated when stumps were drawn for the day, the score being 116 for one wicket—Hobbs 55 and Gunn 50.

Of the English bowlers S. F. Barnes took seven wickets for 60 runs—a good achievement—and J. N. Crawford three for 52.

SECOND DAY'S PLAY.

Gunn In Form.

(From Our Special Correspondent.)

Sydney, February 22, 2 p.m.

When the English batsmen resumed their places at the wickets this morning the weather was showery and the attendance necessarily suffered.

Hobbs only added seven to his overnight score of 65 when he was dismissed. Gunn, however, by careful play, kept his wicket intact and assisted by Hutchings carried the score past the Australian total of 137.

Hutchings was unable to pass the unlikely number 13 and with that number of runs to his credit he was sent pavilion wards.

At the fifth adjournment Gunn was not out 77 and the score stood at 168 for three wickets.

RAIN STOPS PLAY.

CHURCH MISSIONARY SOCIETY.

At the annual meeting of the Church Missionary Society last evening Bishop Lander presided, and the following committee was elected for the ensuing year on the motion of the Rev. F. T. Johnson and the Very Rev. Archdeacon Banister: Messrs. Banister, Bunbury, Clayson, France, Hipwell, Tompkins, Misses Eyre, Fletcher, Johnston, Messrs. J. Beck, A. Bryer, G. Pacey, G. Crowther Smith, and the clerical members.

His Lordship the Bishop spoke on Anglian mission work in China, and was followed by the Venerable Archdeacon Moulton, who contended that England must lead in the suppression of opium.

THE LIARS.

Another flattering reception was given to the members of the Amateur Dramatic Club, who are engaged in producing "The Liars" at the Theatre Royal, last night, the large audience being very enthusiastic and liberal in applause. The leading characters (Mrs. W. Logan, Mr. H. L. Hutchinson, Mr. J. Robertson and Mr. A. Chapman) were exceedingly well sustained and another distinct success was scored. Mr. M. S. Northcote was even better than on the previous evening, while Mrs. van der Woude showed to great advantage, particularly in the third scene, when the "possibilities" were discussed.

In his role of George Nepean, Mr. C. T. Deane naturally attracts the sympathy of the audience, and his funereal manner was just what was required to complete the character. Lieut. Commander Dickens' representation of the waiter at the Star and Garter Hotel showed that a great deal of care has been lavished on the character and the result is capital. Mrs. Clothier's (Dolly Coke) plaintive request to know where she herself dined and her nuchalant air when telling her story to Gilbert Nepean were well suited to the role she undertook, and her husband's (Major Broke) virtuous indignation at the very idea of joining in such a disgraceful scheme was well simulated. Mrs. O. D. Thomson's (Mrs. Cresspin) gentle sarcasm was very effective and she played up well to the principals. Miss Chapman had little to do as the maid, but that little she did extremely well, being at her best when she called for Lady Jessica at the Star and Garter. Mr. P. N. Little, Mr. H. V. Wilkinson and Mr. Butten, as Taplin, the Footman, and Gadsby respectively, maintained their roles well and aided in no small measure to the success of the performance. The scenery deserves more than passing comment. It was well ahead of anything which has yet been seen on the local stage and Messrs R. Sutherland and J. Robertson have every reason to be proud of their work. Messrs White and Gird of Messrs Powell, Ltd. superintended the arrangement of the furniture, curtains, etc. The play will be repeated to-night and those who have not yet decided to go should not miss this opportunity.

ALICE MEMORIAL HOSPITAL.

Annual Report.

Last evening a meeting of the Finance Committee of the Alice Memorial Hospital, Netherdale, Alice Memorial Hospital and Ho Min Tang Hospitals was held at the Alice Memorial Hospital, the Hon. Mr. A. W. Brewin presiding. Among the others present were Dr. R. Macdonald Gibson (Secretary), Hon. Dr. Ho Kai, Messrs. Duncan Clark, A. Rumball, M. Watson, S. W. Tso, Chou Leung-chue, P. Van Tsin and Hu Choo.

Messrs. D. W. Craddock, A. S. D. Constand, J. W. C. Bonmar, A. Turner and E. S. Kadoorie were elected members of the Finance Committee on the motion of the Secretary, seconded by Mr. Rumball. The Secretary stated that the ordinary donations during the year had been \$10,360 as compared with \$8,700 for the preceding twelve months. The Hospital Sunday collection had realised \$111 more than the previous year but they hoped the return would get up \$700 as in preceding years. The special donation of \$4,000 from the Chinese procession fund helped them to show a respectable balance sheet. It was a matter for regret that there should be a debit balance of \$1700.

The report and balance sheet were adopted on the motion of Mr. Rumball seconded by Mr. Tso.

Mr. H. R. Phelps was appointed Hon. Treasurer on the proposal of Mr. Watson seconded by the Hon. Dr. Ho Kai.

Votes of thanks to the committee of the Chinese procession fund with special mention of Messrs Ho Kom-tong and Chou Suk-ki; to Messrs Chun Chik-yue and Chan Kang-yu, and to Mr. David Wood, were passed.

The Chairman said that Dr. Gibson must have experienced mixed feelings in giving his report. The work of the hospitals was increasing in usefulness but the fact that the ordinary revenue fell \$24,500 short of the expenditure was disconcerting. He was sure, however, that many who did not now subscribe to the funds would do so if they were asked. He thought figures were always more eloquent than words, and he had noted the following figures from the report, which would show the growth of the hospital. In the ten years ending 1897 the average number of in-patients was 732; for the five years ending 1902 this rose to 814, and in the five years ending 1907 to 876. The out-patients showed a corresponding increase from 9000 up to 12,000, and finally to 16,000. The opening of the Maternity Hospital had gradually increased their work, and consequently their expenditure. The number of ladies in hospital in 1905 was 45; last year there were more than double this number, or 100. Outside last year 22 patients were attended, whereas this year the number was 114. Dr. Sobrey must have felt proud when she reflected that she had presided over the inauguration of the maternity work in Hongkong, and her name would be so prominently connected with this work as long as it proceeded (applause). The speaker regretted that he would not be able to be of much help to the committee in meeting the deficit this year, as he would be shortly leaving the Colony, but anything he could do during the short time he was here he would be very pleased to do (applause).

Dr. Ho Kai moved and Mr. Clark seconded a vote of thanks be accorded to Mr. Brown and that he be elected Chairman for the coming year.

The motion was agreed to and after the Chairman returned thanks the meeting closed.

CANTON-HANKOW RAILWAY.

The long debated question relating to the registration according to the newly revised commercial laws of China of the Canton-Hankow Railway Company is at last settled. The great trouble which has prevailed during the past two years, owing to the non-registration in the Board of Agriculture, Industry, and Commerce of the company has retarded progress and was responsible for the conflict between sections of the shareholders of the Chan Yang party and those of the Seventy-two guilds and Nine Charitable Institutions.

With Sir Chen Tung Liang Chang at the head of the Railway Company the question of the registration of the company seems to have been properly arranged. A vote has arrived from the Board of Agriculture, Industry, and Commerce recognizing the Nine Charitable Institutions and the Seventy-two Guilds as promoters of the Company, and the same have been duly registered. In the meantime the shareholders belonging to the Chan Yang party were anxious because fears have been entertained that with the Company properly registered and with the money in the hands of Chan Yang Yee and Yang Sai Ngan not having been paid into the Company their shares might not be recognized. These shareholders are reported to have started law suits in the Courts of Hongkong claiming the recovery of the money paid to Chan and Yang, and developments of the case are awaited by the majority of the shareholders with much interest.

In regard to other matters of the Company, Sir Chen Tung Liang Chang is very confident that now that the Company has been registered and Lo Po Shan and others have been recognized by the shareholders as the proper persons for the safe-keeping of the funds of the Company, no further trouble is anticipated to delay further progress, and as the formation of a Railway bank has been considered the most imperative step to be taken to restore confidence, repeated communications have been made to Lo Po Shan, of Hongkong, who is the Chairman of the Financial Management of the Company, and the arrangement of the bank should be started before a second call has been made or otherwise. But the opinion of the public as far as we can gather from the native press, is that what the majority of the shareholders have long looked for is a report as to how the work has proceeded and what amount of money which was reported to have been misappropriated, has actually been misused, and what steps have been taken or are proposed for its recovery, and some information generally relating to the company's affairs for the past two years.

Unless this is forthcoming the mere substance of an extension among the shareholders and the announcement of the formation of the bank coupled with the proper registration of the company, will not help to give the shareholders the amount of encouragement to pay up their calls with such alacrity as was the case in connection with the first call. It should be remembered that at the time the first call was made, the people were excited because their representative Lai Kwok Lim was arrested and the subscriptions so suddenly paid amounted in all to \$8,000,000.

At the present moment it is impossible to make a further arrest in order to make the people pay up their second call, and the President must either announce what work has been done or what the condition of affairs is, or both. We would commend this to the attention of President Sir Chen Tung.

CHARGE AGAINST VICEROY SHUM.

In Collusion With Reformers.

Senator Li Cheuk-wa has brought a remarkable charge against Viceroy Shum, and has appealed to the throne, to have the charge investigated. The gist of the count is that when the Viceroy was in charge in Kwangtung, he degraded several of the lesser officials—in Kwangtung ten, and in Kwangsi seven—and that the motive for this drastic action was by no means single. It was in fact an act moved by a desire of private revenge. At that time the Magistrate who ruled at Nam Hoi, was Pui King-fuk. In discharging his duties he is alleged to have come into possession of certain documents which showed that Shum was in correspondence with the traitors Hong Yau-wei, and Leung Kai-chiu. As soon as Shum suspected that the Nam Hoi Magistrate had learnt the secret, and knew of this correspondence, although the documents were at once burned, the traitors, Pui King-fuk might divulge, dismissed him from his post. At the same time he dismissed others with him, as reported above.

The censor brings forward these alleged facts and asks the throne to examine into the matter, both to reinstate those who have been unjustly dismissed, and also to discover whether there is any ground for the suspicion that Shum was really in collusion with the two traitors. It is said that the authorities at Peking have ordered that the examination shall take place. The comments at Canton, however, seem to show that the desire of revenge on the part of the unfortunate Nam Hoi Magistrate has prompted the action, and moved the censor to make the charge. Every one knows that when Pui King-fuk was cashiered, the people generally were glad. What truth there may be in the allegations that Viceroy Shum was in collusion with the two Reformers can now hardly be made clear, as the documents are all destroyed. But rumour has it, according to the reports, that the retirement of Shum into private life is the result of this suspicion, at which, when the Empress Dowager expressed it, who was furiously angry. Altogether the episode is a good commentary on Chinese official life, and shows how suspicious are harboured, and how in later years they are apt to renew their life, and also to produce results by means of plots for these against whom they are cherished.

PRAISE FROM EVERYWHERE.

The manufacture of Chamberlain's Cough Remedy receives letters from the most remote corners of the world in praise of this well known medicine. Parents in Australia, India and Samoa give it to their babies for colds and croup, and with the same satisfactory results as do the mothers in our homes, and become just as enthusiastic in their praise of its merit. For sale by all chemists and store-keepers.

COMMERCIAL.

There is nothing to report on the exchange market. Business is firm.

The New Zealand Insurance Company's losses in the recent conflagration at Christchurch (N. Z.) amount only to £10,500.

The natives of Yunnan have memorialized the Government for permission to raise money from the land taxes to redeem the French railway in that province.

The Viceroy of Hukuan has engaged a Japanese engineer to construct the Szechuan-Hankow railway. He has left Wuchow to survey the route from Hankow to Shai and Ichang.

A dollar's worth of native rice at Canton is 14 catties as compared with 18 catties a month ago; foreign rice is obtainable at \$1 for 20 catties, as compared with 22 catties last month.

The prospectus of the Palace Hotel Company (Hankow) Ltd. has been issued. The capital in Hankow Taels, 250,000 divided into 10,000 shares of Tls 25 each. The first issue is 8000 shares.

Applications for shares in the Palace Hotel Company (Hankow) Ltd. will be received until February 25. The capital of the company is to be Tls 250,000, made up of 10,000 shares of Tls 25 each.

The piece-goods market runs steady. Most holders of stocks are now clearing fairly rapidly, and when heavy stocks are got rid of business tends to brighten to a degree that has not been experienced for some years past.

The labourers on the Amoy railway have been on strike for an increasing number of days. The men seized a number of dynamite cartridges with a view to blowing up the railway factories and other buildings, but the authorities kept order by the use of troops. A number of the ringleaders have been arrested.

A notice appears in the "Gazette" requesting Managers, Secretaries and other officers of Companies whose duty it is to furnish annual returns of shareholders to the Registrar of Companies to be added to the names of Chinese shareholders appearing in the returns the Chinese characters for such names. (See 6)

A gigantic scheme for the development of the Chinese shipping industry first on inland waters and then abroad, has been proposed as the result of an investigation by the Imperial Government Commissioner. He has reported that nine-tenths of the shipping industry on the inland waters is in the hands of foreigners. The scheme includes measures to be taken to meet foreign shipping in the Yangtze and West rivers, and along the coasts.

YARN MARKET.

Messrs. Cawsonjee Pallanjoo and Co's yarn report is as follows:—Since the issue of our last report on the 7th instant, the same improved aspect of the market has been perceptible, and a good business has been done during the interval. The Chinese dealers have been making small but continuous purchases, and some spinners are quoted as having better than last week's rates. Consequently the absence of many new constituents from the interior after the recent New Year festivities, there appears to be a lack of usual strong activity. However, a good clearance is being effected, and favourable reports from Bombay together with some importations have greatly influenced our market which, meanwhile, closes steady.

No. 6s.—Have been in fair request at an appreciation of \$1 to \$2 per bale. No. 8s.—Nothing doing owing to small stock. No. 10s.—Have attracted most attention as before, though cheaper. No. 12s.—Have been largely demanded. No. 14s.—Have been dealt in more freely, prices being on a par with those of No. 10s. No. 16s.—A fair business has transpired in some threads at previous rates. No. 20s.—A moderate number of sales has been effected in some special spinnings, prices remaining same as before.

Sales during the past fortnight comprise of about 170 bales of No. 6s.; 3,130 of No. 10s.; 1,167 of No. 12s.; 545 of No. 14s.; and 1,089 of No. 20s.; in all about 6,101 bales. Arrivals per steamers Yoboshi, Maru, Katsura, and Vortawer, Laisang and Delhi amount to about 7,000 bales. Shipment to Shanghai and Northern Ports of about 2,000 bales. The unrolled stock is estimated at about 29,000 bales.

Japanese Yarn.—Sales of 215 bales of No. 20s. at \$118 to \$136 per bale are reported.

Local Mills.—350 bales of No. 10s. at \$91 per bale have been sold.

SHARE REPORT.

In their weekly share report, dated 21st February, Messrs. Vernon and Smyth state:—

The anticipated improvement in business after the holidays appears to be a plant of but slow growth, and although rates remain steady we have but little business to report. The disturbed condition of the political horizon in Europe has doubtless had a great deal to do with the somewhat slack week we have to report upon, but the market is evidently more money on the market, a better count might reasonably have been expected, although it is a question how much of such money was available for investment. The market, however, although closing a selling one, remains fairly steady, and only wants a small demand to show a substantial improvement in most stocks, as there does not appear to be any selling pressure, and holders are not at all likely to force their shares on the market. Exchange on London T. 1/10 1/4.

Banks.—Hongkong and Shanghai, after the payment of the dividend of \$22,000 on the 17th inst. were quoted at \$700, and a few small sales were effected at that rate. The market however has been a selling one, owing to the unsettled state of affairs in Europe, and but little business has been transacted. At this time of closing shares are still on offer at \$700. National Bank remains unchanged and without business.

Marine Insurance.—With the exception of small sales of Unions at \$850 we have no business nor changes to report under this heading.

Fire Insurance.—China has changed during the week at \$97, and close with small buyers at that rate. Hongkong have ruled rather weaker on the report that the dividend will be \$27, but with a considerably larger amount placed to reserve, that was anticipated last year. Sales are probably obtainable at the rate.

Shipping.—Hongkong, Canton and Macao have ruled rather weaker, and small sales have been effected at \$30, 20 1/2 and 20 1/4, the market closing with some small buyers at the latter rates. Indo-China

remain unchanged and without business. Star Ferry are required for at quotations, but no shares are available. Shall Transport shares have declined to 45s. in sympathy with a fall on the London market to 45 1/2. We have no business to report in this stock, and the rate may be considered a nominal one. We have nothing further to report under this heading.

Refineries.—China Sugars, on rumours of better prospects, have been in some demand, and in the absence of sellers the rate has improved to \$112 buyers, and it is probable that a slightly higher rate would be paid. Luzon continue without change or business.

Mining.—Rauha, have been dealt in at various rates, from 7 1/2 to 8 1/2, the market closing quiet at 8, a more or less nominal rate. Charbonnages have advanced to \$525 with buyers, but shares are scarce in the East, and we have no business to report. Chinese Engineering have improved to \$10, without any local business. Langkate, after touching 440 in Shanghai, are now quoted at 420.

Docks, Wharves and Godowns.—Hongkong and Whampoa Docks continue neglected and out of favour, and we have only a small sale at 98 to report, the market closing with sellers. Shanghai Docks have improved to 85 cash, and sales have been made for June at 87 1/2. New Amoy Docks are unchanged and without business. Kowloon Wharves have changed hands in fair lots at 55 and 56 for old and 53 for new shares, the market closing with sellers of old at 56 and of new at 54. Hongkong Wharves in Shanghai have ruled between 215 and 215 1/2 closing at the latter rate.

Lands, Hotels, and Buildings.—Hongkong Lands continue quiet, and we have heard of no business, the market closing 101 nominal. Hongkong Hotels are slightly weaker, with sellers at 104, in place of the buyers reported last week. We have heard of no sales in this stock. West Point continue a dead letter.

Edison Mills.—Eves have advanced in the North to 58, and Hongkong have declined locally to 51 1/2, further than these we have no change or business to report under this heading.

Miscellaneous.—China Borneo have changed hands at 150. The statement of accounts of this Company to the 31st December last, just issued, shows a profit of \$161,262.74 for the year 1907, which, after deducting the debit of the working account of 1906, leaves a balance at credit of \$82,756.00. Watsons have been placed at \$101 and \$10, closing with buyers at the latter rate. Powells have also found buyers at \$5. Electric, after small sales at 14 1/2, close in demand at that rate. Ropes are required for at 25, but no shares appear available.

HOW TO GUARD AGAINST CONSUMPTION.

It should be born in mind that consumption is a germ disease. It is not caused by a cold but as a rule starts with a cold. The cold prepares the system for the reception and development of the germs of that disease which otherwise would not have found lodgement. Give every cold you take the attention it deserves and you will be much less liable to contract consumption. This is especially true when you associate with any one who has that disease. To cure a cold use Chamberlain's Cough Remedy. It can always be depended upon. For sale by all chemists and storekeepers.

"THE DIRECTORY AND CHRONICLE" FOR 1908.

The right-hand man of every man in the Far East is the Directory and Chronicle and it has now reached the forty-sixth year of publication. The 1908 edition is to hand, and the increasing bulk of the book, by reason of the natural growth in the European population of the East, has hitherto made the publishers hesitate to introduce a new feature which appears this year—an alphabetical list of firms and professions appended to the usual Directory lists of the various cities included. The growing number of firms in some of the larger commercial centres of the East has rendered classified lists a necessity, and we believe the attempt the publishers have made to meet this need will be very generally appreciated.

The only additions to the already long list of places covered by the Directory are the Manchurian trade centres which have been opened in accordance with agreements made by China with the United States and with Japan. These trade centres are eighteen in number, but as in none of them—excepting Mukden and Antung—are there as yet any European commercial houses, the names of these centres are merely mentioned under the general heading of "Manchurian Trade Centres," which, which has so far developed as to require a couple of pages. Of the Directory lists in general little requires to be said excepting that they have undergone the necessary revision and the descriptions and trade statistics of the various ports have been brought up to date, no far at least as, in the case of statistics, the latest official returns will permit.

Among the additions to the Chronicle portion of the book may be mentioned the China and Japan (Amendment) Order in Council 1907; the Russo-Japanese Railway Conventions 1907; the new Arrangements between Great Britain and Russia to respect the territorial integrity of Tibet; the new tables of Consular and Marriage Fees to be taken in China and Corea, and the Imperial Chinese postal tariff.

A London contemporary reviewing the year's edition remarked that the printing and binding were worthy of a first-class London House. Of the present edition we may say there has been no falling off in that respect. It only remains to be said that the price is as heretofore, viz. \$10 for the complete and \$6 for the abridged edition, and the book is now procurable in all the ports which this comprehensive volume embraces, from Vladivostok to Netherlands India.

"THE ORIENT REVIEW."

We have received the initial number of the "Orient Review," a magazine of the politics, literature, religions, philosophy and art of the East. There are interesting articles dealing with Turkey and Persia, and one by Dr. Emil Reich on the "The International Outlook in the West." Li Po, "the great lyrical poet of China," has inspired L. Cranmer-Blyng to write at length in his honour, while P. Halland Davis gives illustrations of the wit and humour of Persian Poets. A feature of the magazine is its reviews of new books. Mr. Byron Brown writing on works dealing with China. The magazine if it fulfils the promise of the first number should have a successful career.

MANY WEEKS OF PERFECT AGONY

With Eczema on Arm and Legs—
Could Scarcely Sleep for Months—
Tried Many Treatments Without Result—
Did Not Work for 11 Weeks—
Relieved in Ten Days and
COMPLETELY CURED BY
TWO SETS OF CUTICURA

"My trouble began with irritation on the legs and right arm which developed into eczema. It became so bad that I was in perfect agony. I was prevented from attending to my work, and although I was only too pleased to try any remedy suggested by my friends, they were all used without effect. I was then advised to try Cuticura. I was only too pleased to try it, and in ten days I found the irritation disappearing. I would have believed it possible for any remedy to afford such comfort in so short a time. I was able to sleep at night—a thing which I had not been able to do for months—and in the course of another week there were unmistakable signs of the eczema being mastered. I persevered with Cuticura, and in six weeks, using two supplies, I was cured. I have every reason to be grateful to Cuticura, for I was able to return to work after eleven weeks' illness. George Harrison, Police Surgeon, South Island, Yokohama, June 1, 1907.
